

Draft Planning Contributions Supplementary Planning Document (September 2017)

Schedule of Responses to SEA/SA Screening Statement

THE ROYAL BOROUGH OF
KENSINGTON
AND CHELSEA

Name	Comment	Response
Natural England (Piotr Behnke)	Having taken a look at this consultation Natural England would have no issue with the determination that there is no further assessment required under the SEA Regulations for the above two SPDs and as such would have no further comment to make with relation to this particular consultation at this time.	Noted
Environment Agency (Keira Murphy)	Although there is the potential to add to the guidance in the SPD to strengthen/clarify requirements for flood risk and biodiversity, we do not think the Draft Planning Obligations SPD guidance in itself would have any significant environmental impacts.	Noted
